ABOUT OUR TRUCKS

Our units have a multitude of options to meet your operational needs. We can manufacture your logging unit on any chassis you choose from Peterbilt, Kenworth, International or MAC to name a few.

Logging speeds are variable from as low as 4 fpm for logging and from 1200 fpm for rapid retrieval of downhole tools. Optional slow speed kits available for slower logging speeds based on customer's operational needs.

Hoist Packages: Single, Split or Double Drum Configuration Available
