ABOUT OUR TRUCKS

Our units have a multitude of options to meet your operational needs. We can manufacture your logging unit on any chassis you choose from Peterbuilt, Kenworth, International or MAC to name a few.

Logging speeds are variable from as low as 4-100 fpm for logging and from 600-800 fpm for rapid retrieval of downhole tools. Custom logging speeds can be provided based on customer's operational needs.

CABIN SPECIFICATIONS

Cabin designs are all customer selected from layout to wall color and material. Custom cabinetry and counter tops are designed to meet our customers' expectations. Our units come standard with ruggedized coffee makers, microwaves and optional refrigerators.
